Subject: Application for Software Engineer Position

Dear Hiring Manager,

I am writing to express my interest in the Software Engineer position at your organization. I am a B.Tech Information Technology graduate with a strong foundation in full-stack web development and a keen interest in building reliable, scalable, and user-friendly software applications.

I have hands-on experience with React.js, JavaScript, Node.js, Express.js, MongoDB, MySQL, REST APIs, Git, and GitHub. Through projects such as a MERN Stack Job Portal, Student Management System, and Library Management System, I have developed practical experience in creating responsive interfaces, building CRUD operations, integrating APIs, working with databases, implementing authentication, and developing real-time application features.

I am a motivated and quick learner with strong problem-solving skills and a willingness to learn new technologies. I am confident that my technical foundation, project experience, and enthusiasm for software development would allow me to contribute effectively to your team.

I would appreciate the opportunity to discuss how my skills and interests align with your organization. Thank you for considering my application. I look forward to hearing from you.

Sincerely,

Naveen Kumar
